SALIENT FEATURE OF PRECAST MODULAR UNITS

Comfort

When the toilets are kept in the open, due to summer heat, there will be very less discomfort while using the toilet.

Maintenance

Very minimal, compared to plastic and ordinary bricks toilets having fungi, plastic toilets discolouring over time.

Refurbish

When we move from one project to another project, entire interiors can be redone including the closets, tiling and painting.

Investment

Value for money, at par with the other modular toilets, but can be used for several years, thus it will make it cheap.

Relocation

They are easy to install and are offered in simple standard instruction and relocated to different sites is easily possible.

Life Line & Durability

Since made of high grade RCC, life is superior compared to other systems and is very sturdy.
